

WIR PACKEN'S AN
Emergency Aid for Refugees

STAND WITH REFUGEES! DONATE NOW!

DROP OFF YOUR DONATION:

We collect donations all year round for people on the move. At Europe's external borders, many refugees live under extremely harsh conditions: in temporary camps, under tarps, or out in the open – for example in Calais on the English Channel, along the Balkan route in Bosnia, Serbia, and Croatia, or at the Poland–Belarus border.

To make sure people receive what they urgently need, you can find a specific list of required items here.

We kindly ask that you donate only the listed items – clean and in good condition. Damaged or dirty items cannot be accepted.

We are in close contact with our partner organizations on the ground and regularly update the list of needed items. This way, your donation goes exactly where it's needed most. Efficiently, quickly, and with impact.
